Workshop on Distributed Software Development

WORKSHOP PROGRAM

Time	Session	Paper title
9:00-10:30 am	**Experience reports**	A Case Study of a Successful Collaboration in Distributed Software Development, *Adel Taweel*
		Extreme Programming in Distributed Software Development: A Case Study, *An Ngo-The, Kiem Hoang, Truc Nguyen, Nhien Mai*
		Organizational Pattern Mining - A Retrospective on XP in the Large Scale Software Development Project, *Mark Sheppard*
Coffee break		
11:00-12:30 pm	**Theories in GSD**	A Framework for considering Opportunities and Threats in Distributed Software Development, *Pär J Ågerfalk, Brian Fitzgerald, Helena Holmström, Brian Lings, Björn Lundell, Eoin Ó Conchúi*
		Leveraging Design Patterns in Global Software Development: A Proposal for a GSD Communication Pattern Language, *Allan Scott, Luis Izquierdo, Sweta Gupta, Robert Elves and DanielaDamian*
		Using ontologies in Distributed Software Development, *Karin K. Breitman, Miriam Sayã, Leonardo M. Couto*
		Coordination as the Challenge of Distributed Software Development, *Gamel O. Wiredu*
		Situational Requirements Engineering gets distributed!, *Bernd Bruegge, Korbinian Herrmann, Axel Rauschmayer, Patrick Renner*
Lunch break		
2:00-3:30 pm	**Collaborative tools: Tool demo**	Using the EConference Tool For Synchronous Distributed Requirements Workshops, *Fabio Calefato, Filippo Lanubile*
		Bootstrapping Incremental Design: An Empirical Approach For Requirements Identification and Distributed Software Development, *Naoufel Boulila, Allen H. Dutoit, Bernd Bruegge*
		Supporting Traceability in Distributed Software Development Projects, *Timo Wolf, Allen H. Dutoit*
		Groupware requirements for supporting software architecture evaluation process, *Muhammad Ali Babar, June Verner*
		Traceability Management in ADAMS, *Andrea De Lucia, Fausto Fasano, Rita Francese, Rocco Oliveto*

Coffee break		
4:00-5:30 pm	**Brand new research**	Investigating IBIS in a distributed educational environment: the design of a case study, *Daniela Damian, Filippo Lanubile, Teresa Mallardo*
		Requirements management in a special case of global software development: A study of asynchronous communication in the Open Source Community, *Luis Izquierdo, Daniela Damian, Daniel German*
		Virtual Team Implementation and Management - A Position Paper, *Tom O' Regan, Valentine Casey, Ita Richardson*
	Workshop final discussion and Wrap up
